

SARNIA-LAMBTON ONTARIO • CANADA

ADVANCED MANUFACTURING

SARNIA-LAMBTON IS HOME TO:

265+ Advanced Manufacturing **COMPANIES**

7,500 Advanced Manufacturing **EMPLOYEES**

With companies leading the development of innovative, cutting-edge products and technologies **advanced manufacturing** is a cornerstone of the Sarnia-Lambton economy. A diverse range of high-value industry leading products are manufactured in Sarnia-Lambton, including plastics, chemicals, industrial equipment, automotive and transportation parts, military and police supplies, construction and custom metal products.

WHY SARNIA-LAMBTON?

MARKET ACCESS

Duty-free international market access via USMCA, CETA, CKFTA, CPTPP.

LOCATION

65% of USA, Ontario, and Quebec markets are within a one-day drive.

AFFORDABLE ENERGY

35-40% savings on electricity costs thanks to “behind-the-fence” energy pricing.

ESTABLISHED INFRASTRUCTURE

Utilizing extensive existing and shared infrastructure can save 20% on capital costs.

HIGHLY-SKILLED WORKFORCE

12,700 highly skilled manufacturing and service workers.

The **Sarnia Lambton Industrial Alliance** is a coalition of more than 35 Sarnia-Lambton area companies who employ more than 2,600 people that specialize in all aspects

of metal fabrication, machining, technology, environmental, and support services geared towards manufacturing industries. Each company provides cutting-edge specialized services in its own discipline, partnering with other companies to provide clients with seamless, integrated services.

EDUCATION, INNOVATION, R&D LEADER

Lambton College offers **SPECIALIZED PROGRAMS** in technology & skilled trades.

TOP 3 RANKED college in Canada for applied research.

CANADA'S LARGEST clean-tech incubator.

INVESTMENT OPPORTUNITIES

AUTOMOTIVE MANUFACTURING

6.5 million vehicles are produced annually within four hours of the Sarnia-Lambton area.

One hour from the Detroit auto manufacturing cluster.

NEXT GENERATION MANUFACTURING

New innovations in areas such as 3D printing and additive manufacturing, automation and robotics, rapid / custom production, and software embedded technologies.

METAL FABRICATION & MACHINING

Capability to service diverse sectors, including chemical, power generation, automotive, construction, and agriculture.

The Oversized Load Corridor further strengthens our access to global markets.

INDUSTRIAL SERVICES

Engineering, environmental services, and IT support local advanced manufacturing.

One of Canada's highest concentrations of professional engineers per capita.

CRADLE TO CRADLE MANUFACTURING

Advanced manufacturers and industrial services in Sarnia-Lambton support the advancement of a **CRADLE-TO-CRADLE** manufacturing process, taking an idea from concept, to front-end development, to manufacturing, to end of life.

INDUSTRIAL SITES

Bluewater Energy Park & Bio-industrial Park Sarnia

Fully serviced industrial parks ideal for utility extensive manufacturing with direct connections to shared infrastructure and “behind-the-fence” energy pricing. Several municipal and private industrial parks and buildings are also available.
